

# PAINTING

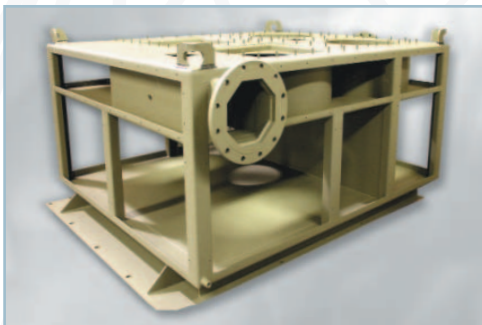

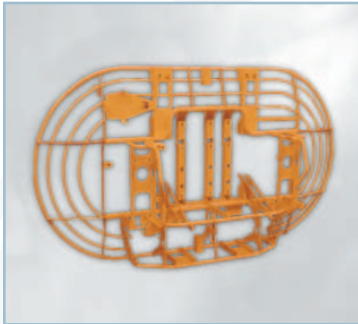

## WET

### WET PAINTING

For parts too large or heavy for our six powder coating paint lines, or for parts with special coatings requirements, we maintain a wet painting line.

### Wet Paint Line

- Power-and-Free conveyor system
- Accomodates very large and/or very heavy parts
- Accomodates the need for special coatings or custom requirements
- Color matching is available
- Can paint plastic as well as metal
- Phosphate wash system
- Catalyzed paint and primer
